CONTACT NAME: Marion Boyle

OPENING HOURS: 09:00-17:00 Mon-Fri.

The Operating Department is located on the first floor of the hospital adjacent to the Intensive Care Unit.

The department within the Bon Secours Hospital is comprised of:

- 3 operating theatres plus 1 minor operations theatre
- A Post Anaesthesia Care Unit (Recovery Area)
- Theatre Sterile Supplies Unit

Consultant surgeons at the hospital provide a comprehensive range of surgical specialities, including:

- ENT
- General
- Oral
- Vascular / Laser.
- Ophthalmic
- 24 hour Emergency Surgery
- Orthopaedic
- General and Minimal Invasive Surgery
- Urological
- Gynaecological

State of the art facilities include General and Ultra Clean Ventilation Theatres and an Endoscopy Suite. Fibreoptic, bronchoscopy, colonoscopy, gastroscopy, laryngoscopy, cystoscopy and choledochoscopy procedures are available.

Our consultant surgeons offer direct access to general practitioners for endoscopic investigations, such as gastroscopy. Access to a full range of minor surgical procedures on an outpatient basis will be facilitated within seven days of referral.

The essence of perioperative nursing within the department is to provide a safe and caring environment for all patients. Operating Department nurses have the specialised skills and technical knowledge to implement and plan programmes of patient care. Skilled perioperative nursing assistance is provided to the patient.

Consultant Surgeons and Anaesthetists are part of the multi-disciplinary team.
